

Follow these simple steps  
and start paying your bills  
online through our app

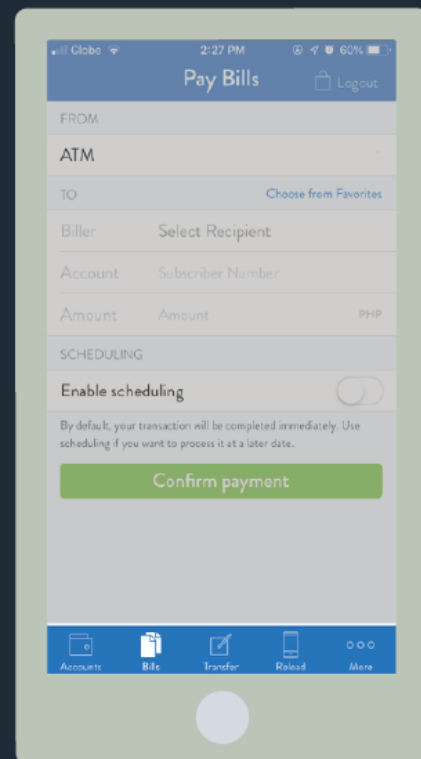

# Step 1. Log in to your Security Bank Online App

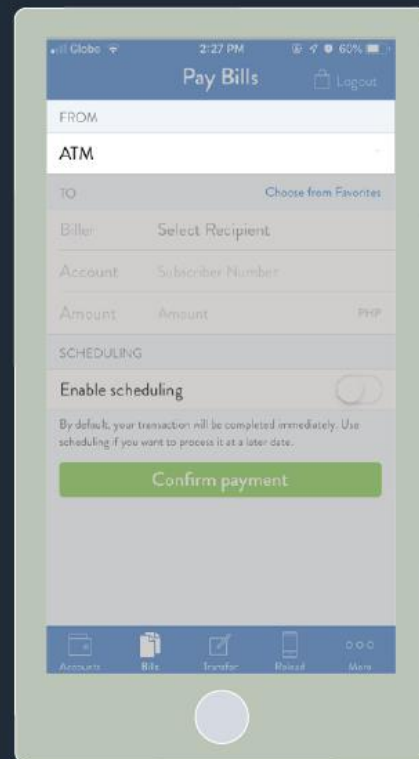

## Step 2.

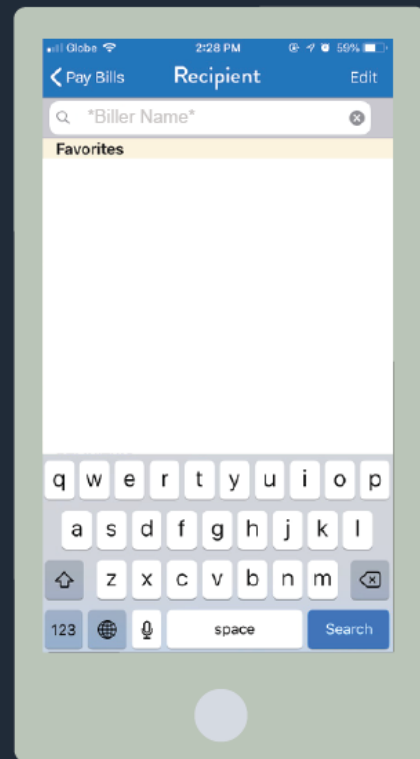

From the menu at the bottom select the bills icon

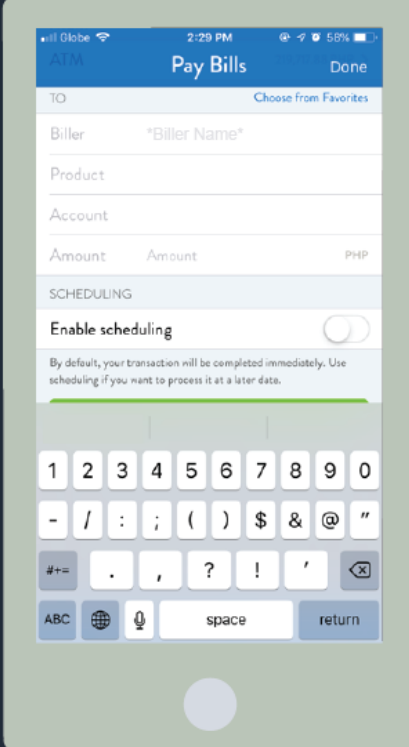

# Step 3. Select your account

## Step 4. Select your biller / merchant

## Step 5. Fill in the necessary details

The screenshot shows a mobile banking application interface for paying bills. The screen is titled "Pay Bills" and has a "Done" button in the top right corner. The status bar at the top shows "Globe" as the carrier, the time "2:29 PM", and a battery level of "58%".

The main form area includes the following fields and sections:

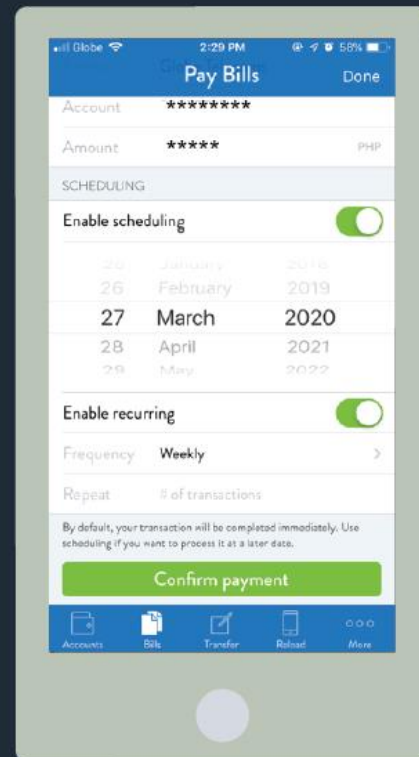

- TO:** A dropdown menu with the option "Choose from Favorites".
- Bill:** A text field containing the placeholder text "Bill Name".
- Product:** A text field.
- Account:** A text field.
- Amount:** A text field with the placeholder "Amount".
- PHP:** A text field with the placeholder "PHP".

Below the form fields is a section titled "SCHEDULING". It contains a toggle switch for "Enable scheduling", which is currently turned off. Below the toggle is a small explanatory text: "By default, your transaction will be completed immediately. Use scheduling if you want to process it at a later date."

A standard QWERTY keyboard is overlaid on the bottom half of the screen, indicating that the user is in the process of entering information into the form fields.

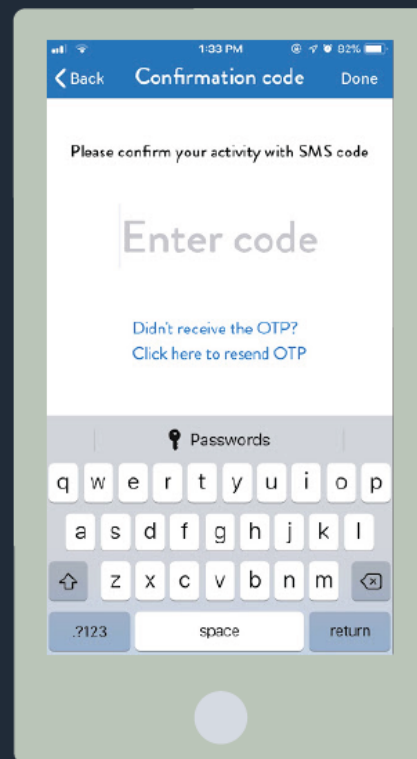

## Step 6.

You can schedule and set up recurring payments

# Step 7.

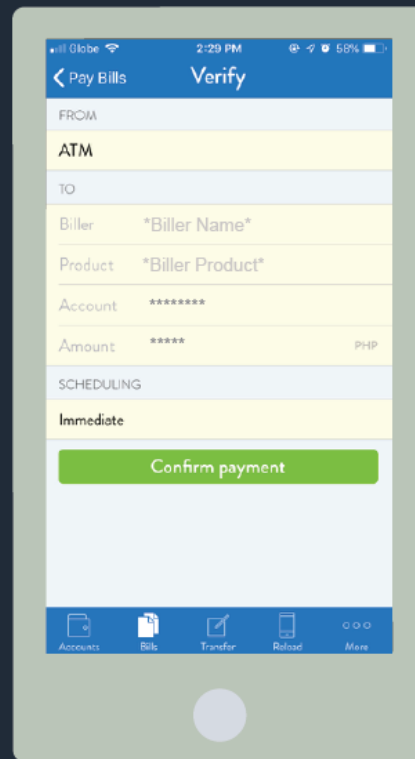

## Enter your OTP code

## Step 8.

Tap 'Confirm Payment' after reviewing the details entered

## A few things to remember

- To check if your transaction was successful, a reference number will be given to you along with the details of your transaction
- You will also receive an email notification confirming that payment or transfer has been completed.
- It is also advisable to check your balance after your transaction to see if you've been debited.
