INDUSTRIAL ENGINEERING

JUNE 2018

APQC (AMERICAN PRODUCTIVITY & QUALITY CENTER)

<https://www.apqc.org/>

[Retrieved June 20, 2018]

APQC helps organizations work smarter, faster, and with greater confidence. It is the world's foremost authority in benchmarking, best practices, process and performance improvement, and knowledge management. APQC's unique structure as a member-based nonprofit makes it a differentiator in the marketplace. APQC partners with more than 500 member organizations worldwide in all industries. With more than 40 years of experience, APQC remains the world's leader in transforming organizations.

ENGINEER'S EDGE: SOLUTIONS BY DESIGN

<http://www.engineersedge.com/>

[Retrieved June 8, 2018]

Engineer's edge mission is to be the preferred online destination for designers, engineers and manufacturing professionals. It provides a quick information to aid in the solution of typical and complex technical problems. Engineer's Edge offers world class engineering on-site training and public seminars.

ERGONOMICS.ORG

<http://ergonomics.org/>

[Retrieved May 29, 2018]

This website is dedicated to the exchange of information between the fields of ergonomics and the Alexander Technique. Suggestions and contributions from ergonomists and from Alexander Technique students and teachers are most welcome.

THE ERGONOMICS SOCIETY

<http://www.ergonomics.org.uk/>

[Retrieved May 24, 2018]

An international organization for professionals using knowledge of human abilities and limitations to design and build for comfort, efficiency, productivity and safety. Chartered Institute of Ergonomics & Human Factors (CIEHF) is a UK-based professional body with over 1700 members. CIEHF members are practitioners, students and researchers working or studying in ergonomics and human factors or a related field. The CIEHF raises awareness of the discipline, sets and maintains professional standards, supports its members, and promotes networking and communication among those who have an interest in ergonomics, human factors and related fields.

ERGOWEB

<https://ergoweb.com/>

[Retrieved June 19, 2018]

This site is the number one source for ergonomics. It delivers ergonomics consulting and ergonomics training services, carefully selected ergonomic products, publish loads of industry news and information, and host the world's largest ergonomics specific collaboration and discussion community.

FACILITY SAFETY MANAGEMENT

<http://www.fsmmag.com/Pages/weblinks.htm>

[Retrieved May 24, 2018]

The organization's mission is to provide safety professionals with up-to-date, relevant information to ensure the safety and well-being of employees and other occupants of their facilities, while assisting them in preparing for emergencies and preventing disasters. Our objective is to be the definitive source for reliable, accurate and timely information to guarantee the environmental health and safety of the workplace.

GREATEST ENGINEERING ACHIEVEMENTS OF THE TWENTIETH CENTURY

<http://www.greatachievements.org/>

[Retrieved May 30, 2018]

The greatest engineering achievements website celebrates a remarkable century of technological achievement. The website contains detailed historical information, timelines, and personal essays by key innovators of each twenty major engineering accomplishments of the 20th century. The content for the site is adapted from the 2003 book, *A Century of Innovation: Twenty Engineering Achievements that Transformed Our Lives*. The book was developed through a project initiated by the National Academy of Engineering.

HUMAN FACTORS AND ERGONOMICS SOCIETY OF THE PHILS.

<http://hfesp.org/>

[Retrieved June 5, 2018]

Human Factors and Ergonomics Society of the Philippines is an organization dedicated to promote the professional practice of human factors and ergonomics in the Philippines. The organization's mission is to encourage education and training in the field of ergonomics and to promote cooperation among organizations with interest in ergonomics and human factors.

INSTITUTE FOR OPERATIONS RESEARCH AND THE MANAGEMENT SCIENCES (INFORMS)

<https://www.informs.org/>

[Retrieved June 19, 2018]

INFORMS serves the scientific and professional needs of Analytics Professionals and Operations Researchers including educators, scientists, students, managers, analysts, and consultants. The Institute serves as a focal point for analytics and O.R. professionals, permitting them to communicate with each other and reach out to other professional societies, as well as the varied clientele of the profession's research and practice.

INSTITUTE OF INDUSTRIAL AND SYSTEMS ENGINEERS

<http://www.iise.org/Home/>

[Retrieved May 11, 2018]

Systems world view. Productivity. Efficiency. These are words that describe the distinctive attributes of industrial engineering, and IISE is the world's largest professional society dedicated solely to the support of the industrial engineering profession and individuals involved with improving quality and productivity. Founded in 1948, IISE is an international, nonprofit association that provides leadership for the application, education, training, research, and development of industrial engineering. ISEs figure out a better way to do things and work in a wide array of professional areas, including management, manufacturing, logistics, health systems, retail, service and ergonomics. They influence policy and implementation issues regarding topics such as sustainability, innovation and Six Sigma. And like the profession, ISEs are rooted in the sciences of engineering, the analysis of systems, and the management of people.

ISO ONLINE

<http://www.iso.org/iso/home.html>

[Retrieved June 4, 2018]

ISO is an independent, non-governmental international organization with a membership of 163 national standards bodies. Through its members, it brings together experts to share knowledge and develop voluntary, consensus-based, market relevant International Standards that support innovation and provide solutions to global challenges.

PHILIPPINE INSTITUTE OF INDUSTRIAL ENGINEERS

<http://www.piiie.org/>

[Retrieved June 4, 2018]

Society that supports the professional advancement of industrial engineers in the Philippines.

RANDOM SYSTEMS, INC.

<http://www.randomsystems.com.ph/>

[Retrieved June 4, 2018]

Random Systems, Inc. is an IT company integrating network systems in the Philippines. We strive to seek solutions and create new opportunities that optimize the success of your company. With cutting edge technologies available in the industry today, Random Systems can help your company achieve greater efficiency and productivity.

Whether big or small, your company can be assured that Random Systems can provide the right answers to your IT requirements. Our experience guarantees that all of our solutions operate efficiently, remain highly available, and benefit from the best practice-based cutting edge technologies available in the industry today.

SAFETY AND HEALTH TOPICS: ERGONOMICS

<http://www.osha.gov/SLTC/ergonomics/index.html>

[Retrieved May 16, 2008]

“OSHA will develop industry- or task-specific guidelines for a number of industries based on current incidence rates and available information about effective and feasible solution.”

SME: SOCIETY OF MANUFACTURING ENGINEERS

<http://www.sme.org/smehome.aspx>

[Retrieved May 29, 2018]

The SME (founded in 1932) is an international professional society dedicated to serving its members and the manufacturing community through advancement of professionalism, knowledge, and learning. SME has a rich and evolving heritage spanning more than 80 years. It serves the manufacturing industry as a nonprofit by promoting advanced manufacturing technology and developing a skilled workforce. SME works closely with manufacturers to share knowledge and resources that generate solutions meeting industry demands.

TECHXTRA

<http://www.techxtra.ac.uk/>

[Retrieved June 6, 2018]

TechXtra is a free service which can help you find articles, books, the best websites, the latest industry news, job announcements, technical reports, technical data, full text eprints, the latest research, thesis and dissertations, teaching and learning resources in engineering, mathematics and computing.
