Directory of links to full text research papers, career information, organizations, theories and phenomena, publications, and details of important figures and historical events in the field of psychology.

EXPLAINING THE MIND

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/>

[Retrieved August 23, 2016]

Collection of full text chapters and articles examining various aspects of cognitive science. Includes material on language development, modularity, connectionism, creativity, perception, memory, consciousness, unconsciousness, sociopathy and artificial intelligence.

FORMATION OF FALSE MEMORIES

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/loftus.mem.html>

[Retrieved August 30, 2016]

Article on the effects of retroactive interference, discussing how the receipt of misleading information after an event can alter a person's recollection leading to memories of objects that never in fact existed.

GUIDE TO PSYCHOLOGY AND ITS PRACTICE

<http://www.guidetopsychology.com/>

[Retrieved August 30, 2016]

This website provides free information about the practice of Clinical Psychology. Read the Introduction to discover this website's purpose and philosophy. Explore the various subject categories to the left or browse through the Subject Index.

HUMAN PERCEPTION AND PERFORMANCE GROUP

<http://beckman.illinois.edu/research/themes/hcii/human-perception-and-performance>

[Retrieved August 30, 2016]

Information about a research group investigating the relationship between human perception and action, in connection with processes involved in the acquisition of new skills, ageing, motion detection, response time, limb movement, and posture. Details of interests, facilities, and faculty members are given.

IS THE BRAIN A DIGITAL COMPUTER?

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/searle.comp.html>

[Retrieved August 30, 2016]

Explores the idea of the computer as a model of the mind, investigating the concepts of the brain as a digital computer and the mind as a computer program, and asking whether the operations of the brain can be simulated on a computer.

INTERNATIONAL ASSOCIATION OF APPLIED PSYCHOLOGY

<http://www.iaapsy.org/>

[Retrieved August 30, 2016]

Society aiming to facilitate international communication and work in the field of applied psychology. Its mission is “to promote the science and practice of applied psychology and to facilitate interaction and communication about applied psychology around the world.”

JOURNAL OF APPLIED PSYCHOLOGY

<http://www.apa.org/pubs/journals/apl/index.aspx>

[Retrieved August 13, 2016]

Emphasizes the publication of original investigations that contribute new knowledge and understanding to fields of applied psychology. The journal primarily considers empirical and theoretical investigations of interest to psychologists doing research that fosters the understanding of the psychological and behavioral phenomena of individuals, groups, or organizations in settings such as education and training, business, government, health or service institutions. Maintained by the American Psychological Association.

JOURNAL OF CONSCIOUSNESS STUDIES

<http://www.imprint.co.uk/jcs.html>

[Retrieved August 6, 2016]

Considers the study of consciousness in relation to cognitive science, neurophysiology and philosophy. Features background information on the interdisciplinary nature of the journal and full text articles on topics such as the self, subjectivity and awareness. Contents and abstracts of each issue are available.

JOURNAL OF MIND AND BEHAVIOR

<http://www.umaine.edu/jmb/>

[Retrieved August 30, 2016]

Publication examining the interrelationships between mental processes or cognition and overt human behavior, and between mind and body. Articles strive to highlight the interdisciplinary nature of philosophy, psychology and sociology. Abstracts for all back issues are available online.

ILLUSORY INFERENCES ABOUT PROBABILITIES

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/jlaird.prob.html>

[Retrieved August 3, 2016]

Paper suggesting that even intelligent adults make inferences when reasoning which seem obvious but are, in fact, totally erroneous.

LONG-TERM WORKING MEMORY

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/ericsson.long.html>

[Retrieved July 30, 2016]

Paper arguing that models of working memory should be based on storage in long-term memory if they are to

account for cognitive processing of skilled activities such as text comprehension, mental calculation, medical diagnosis, and playing chess.

MIND AND BODY: RENE DESCARTES TO WILLIAM JAMES

<http://serendip.brynmawr.edu/Mind/Table.html>

[Retrieved July 30, 2016]

“Modified from the Catalogue Accompanying an Exhibition of Books from the Collections of the National Library of Medicine, Held in Honor of the Centennial Celebration of the American Psychological Association, August 7 to December 15, 1992. The original exhibition was sponsored by National Library of Medicine, Bethesda, Maryland; and the American Psychological Association, Washington D.C. 1992”.

NATIONAL ALLIANCE FOR RESEARCH ON SCHIZOPHRENIA AND DEPRESSION

<http://www.narsad.org/>

[Retrieved August 15, 2016]

This site presents news on research related to serious psychiatric disorders, as well as brief background on specific disorders. Awarded by the Brain & Behavior Research Foundation which is committed to alleviating the suffering caused by mental illness by awarding grants that will lead to advances and breakthroughs in scientific research.

ONLINE PAPERS ON CONSCIOUSNESS

<http://consc.net/online>

[Retrieved August 7, 2016]

A directory of 7734 free online papers on consciousness in philosophy and in science, and of related topics in the philosophy of mind. The papers in this directory are drawn from PhilPapers, a database of both online and offline works in philosophy.

ONLINE PSYCHOLOGY CAREER CENTER

<http://www.socialpsychology.org/career.htm>

[Retrieved August 30, 2016]

The Online Psychology Career Center is designed to be a one-stop resource for psychology students and professionals.

PERSONALITY WEBLINKS

http://highered.mheducation.com/sites/0072358327/student_view0/chapter13/web_links.html

[Retrieved August 18, 2016]

This website is maintained by William Revelle, a *psychology* professor at Northwestern University. It provides links to a variety of sites dealing with personality. These Web sites have been selected for their high quality and information value.

PRE-SEEN EXAM QUESTIONS FOR PSYCHOLOGY

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/pointers.html>

[Retrieved March 30, 2016]

Exam questions on the topics of cognitive psychology, consciousness, language, behavior, evolution, neural networks and computation, and perception. Each question links to a relevant explanatory article.

PROBLEM OF CONSCIOUSNESS

<http://users.ecs.soton.ac.uk/harnad/Papers/Py104/searle.prob.html>

[Retrieved August 30, 2016]

Discusses the definition of consciousness and the relation of consciousness to the brain, and attempts to define the features that an empirical theory of human awareness should try to explain.

PSYCHOLOGICAL RESEARCH ON THE NET

<http://psych.hanover.edu/research/exponnet.html>

[Retrieved August 18, 2016]

Contains links to known experiments on the Internet that are psychologically related. They are organized by general topic areas listed chronologically with the most recently added at the top.

PSYBERSITE

<http://www.units.muohio.edu/psybersite/>

[Retrieved August 26, 2016]

Psybersite is a gateway to web tutorials on a variety of subjects in the field of psychology created by advanced undergraduate and graduate students at Miami University covering topics such as social psychology and humor, artificial intelligence, the implications of online gaming, physical attraction, and discrimination in the workplace. These may be used for educational purposes, research, and general study, but please credit the authors and source.

PSYCH CENTRAL

<http://www.psych-central.com/>

[Retrieved August 11, 2016]

Psych Central is the Internet's largest and oldest independent mental health social network. Since 1995, this award-winning website has been run by mental health professionals offering reliable, trusted information and over 250 support groups to consumers. These resources are today's modern voice for mental health information, emotional support and advocacy. With the broadest online reach and recognition of any mental health network today, they touch the lives of over 7 million people around the world every month. They are proud to represent the interests of our membership of over 450,000 people whose lives have been touched by a mental health concern.

PSYCH WEB

<http://www.psychwww.com/>

[Retrieved August 1, 2016]

This website contains a collection of psychology related information for students and teachers of psychology.

PSYCHOLOGICAL ASSOCIATION OF THE PHILIPPINES

<http://www.pap.org.ph/>

[Retrieved August 23, 2016]
